PROFESSIONAL SUMMARY

QA Engineer with **4+ years of experience** in Manual & Automation Testing, specializing in **Playwright (JavaScript/TypeScript)**, API testing, and SQL. Strong background in AML/Financial domain applications within product-based environments. Proven ability to improve test coverage, identify defects early, and deliver high-quality releases in Agile teams.

CORE SKILLS

Testing: Functional, Regression, Smoke, Sanity, UI Testing

Automation: Playwright (JS/TS), Cucumber (BDD), POM Frameworks

API Testing: Postman, REST API Validation

Tools: Git, Jira, TestRail, SQL

CI/CD: Jenkins, GitHub Actions, Webhooks, Allure Reports

Domains: AML, Finance, Banking

Soft Skills: Communication, Problem-Solving, Ownership, Collaboration, Fast Learning

EXPERIENCE

Software QA Engineer | Talentica Software | Remote | Sep 2025 – Present

- Contributing to Full Kit testing within the Realization (customer) team, focusing on high-quality manual testing and functional validation.
- Quickly ramped up on complex workflows; improved test coverage and defect detection within first weeks.
- Developed detailed test scenarios and validated UI/backend data for accurate Full Kit reports.
- Identified critical defects early, reducing rework and enabling timely releases.
- Streamlined regression testing by improving structure and clarity of test cases.
- Collaborated closely with developers and product owners to resolve functional gaps.

Achievement: Outstanding Performer of the Month (Nov 2025) for demonstrating quick adaptability, strong ownership, and impactful contributions to manual testing in Full Kit modules.

QA Engineer | Dataseers | India | Jun 2021 – Aug 2025

- Tested Transaction Monitoring and Name Screening modules in AML domain applications.
- Executed functional, regression, smoke, and exploratory tests.
- Developed Playwright automation scripts, improving regression automation coverage.
- Performed REST API testing using Postman for business and data validation.
- Collaborated with developers and product owners for requirement clarity.
- Identified defects early, helping prevent production issues.

Front End Developer (Short-term) | Axioned | Feb 2021 – Apr 2021 • Developed responsive landing pages for finance, healthcare, and e-commerce clients.

Web Developer Intern | Pepodeal | May 2018 – Jul 2018

- Customized WordPress features to enhance usability and product presentation.
